

The react app for when you need to go but don't know where to go

Toilet SOS

ANTHONY, DAPHNE, EUGENE AND MEGAN 18 NOV 2021

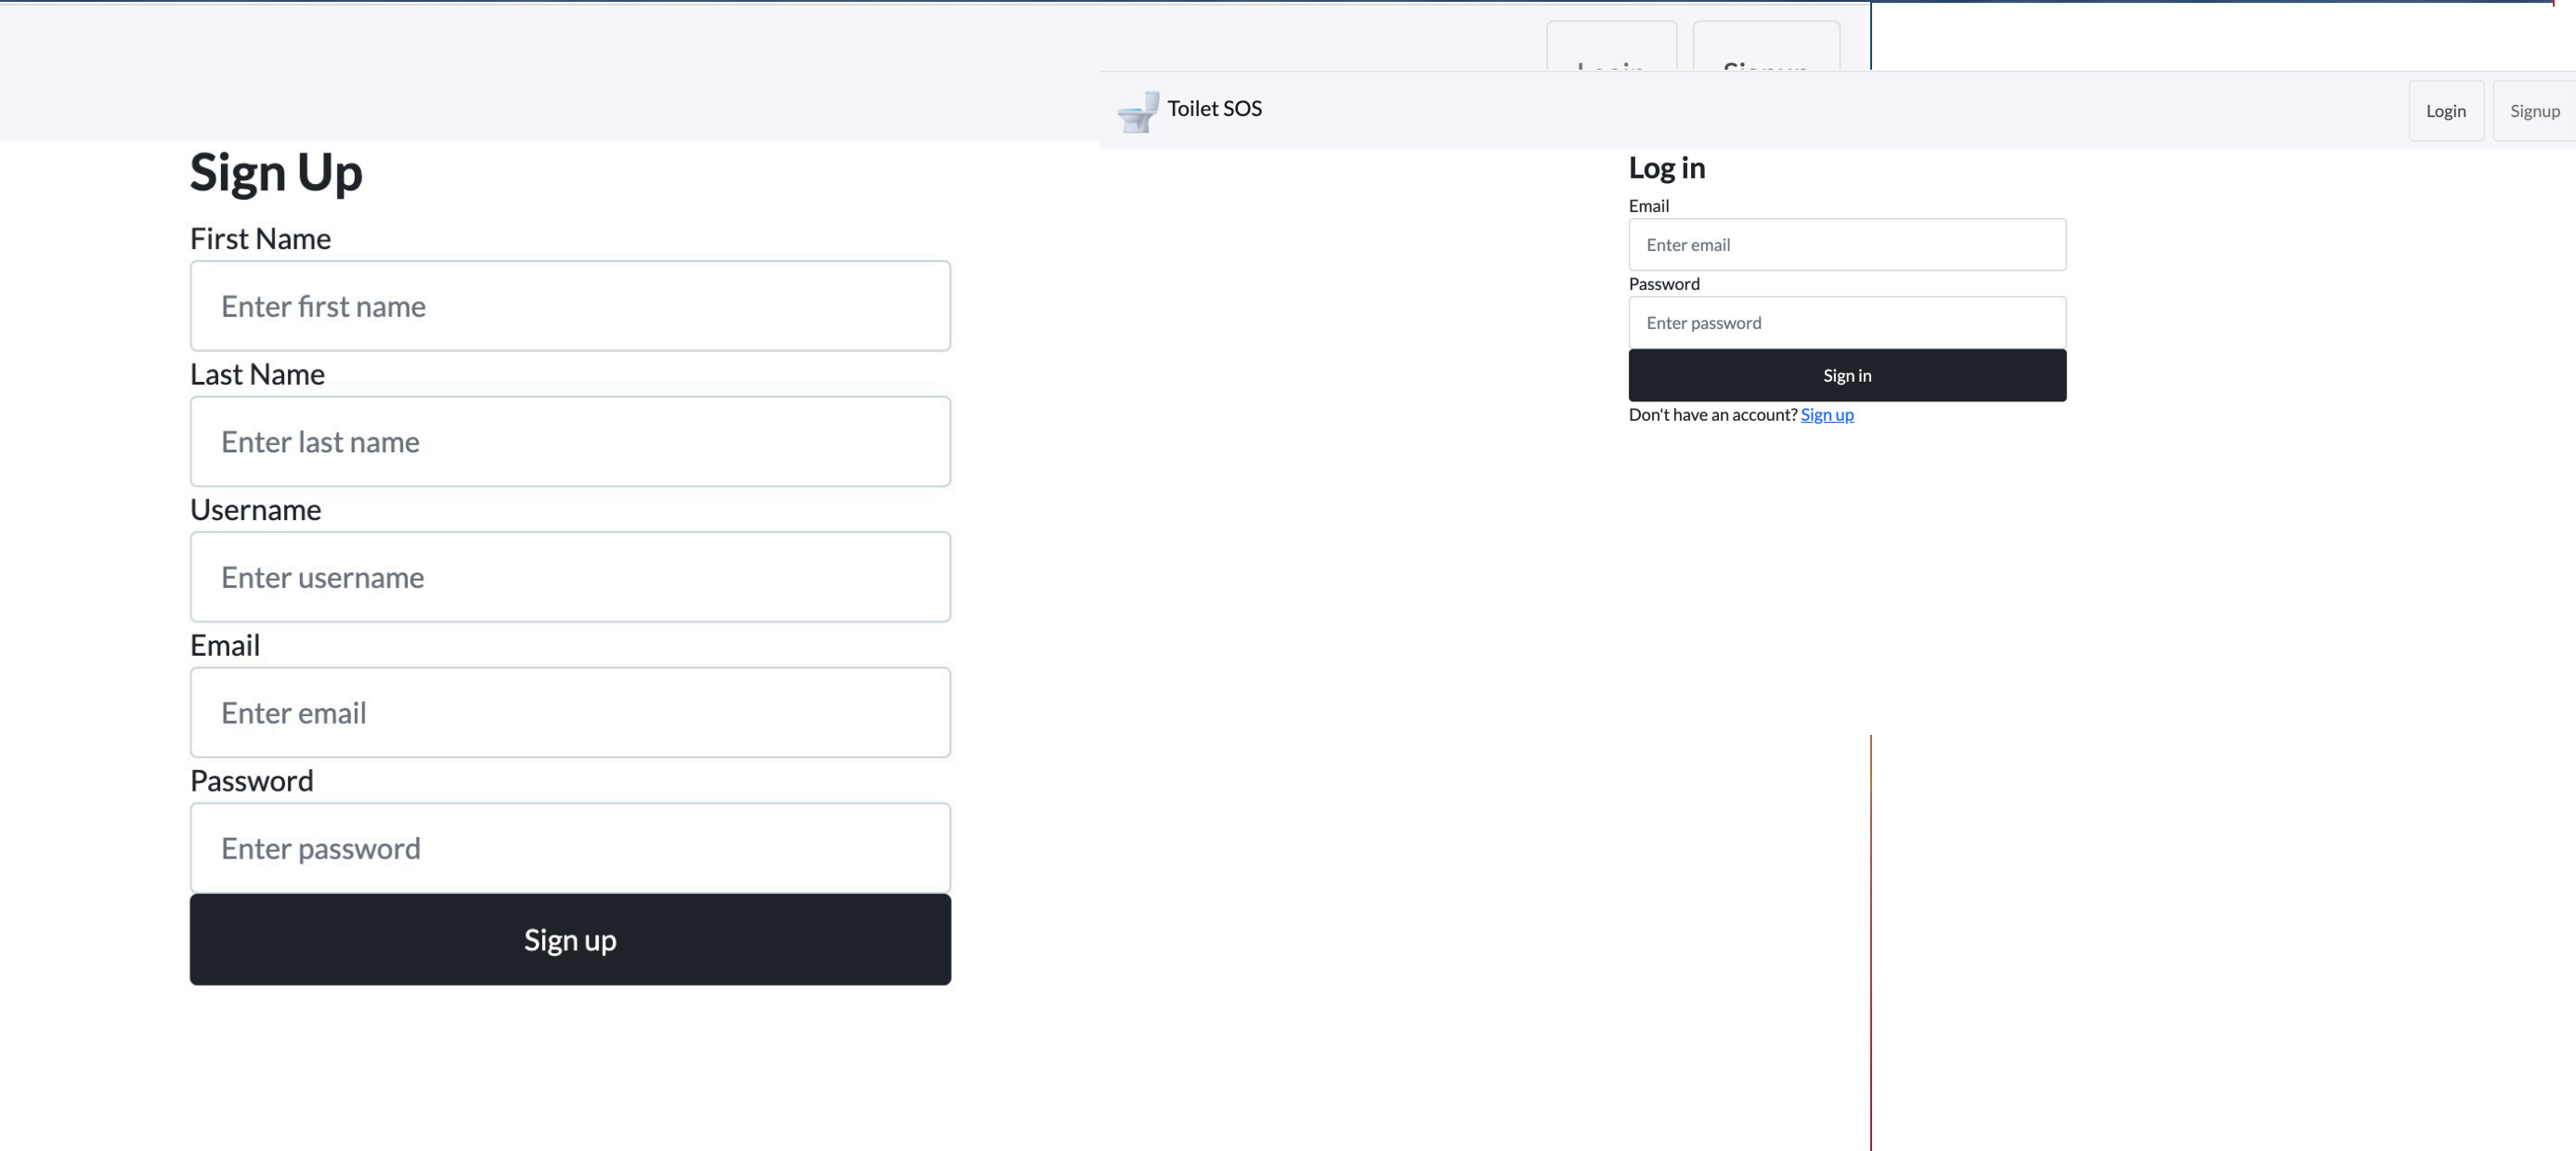

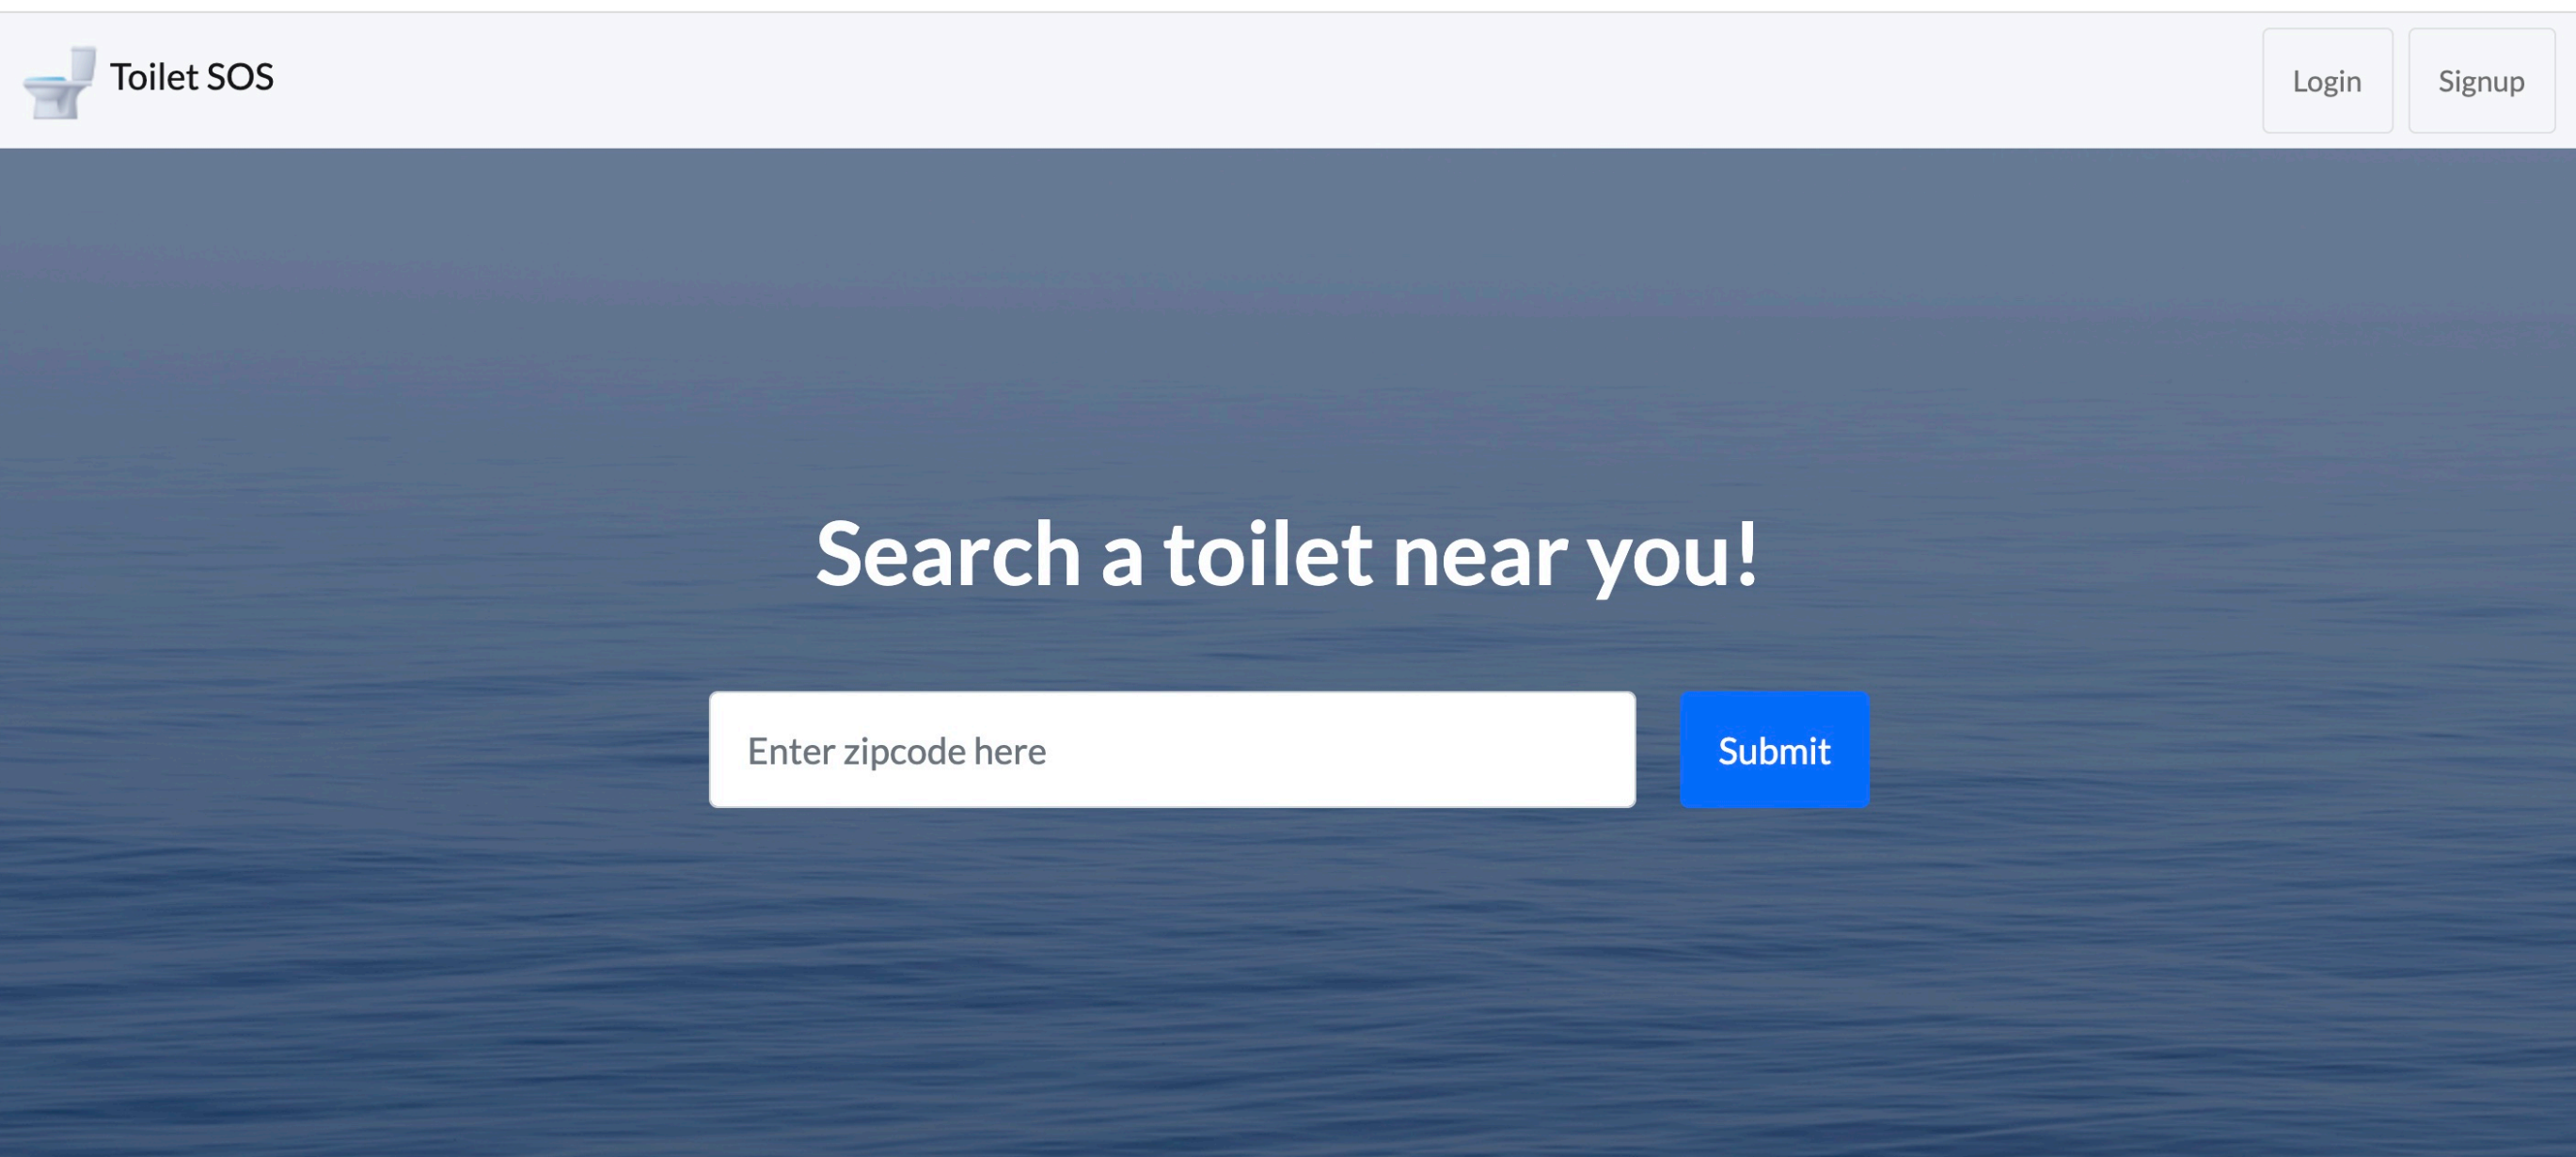

Elevator Pitch

- Have you ever needed to use the restroom, but don't know where to go?
- Have you stopped on a road trip only to find out the restrooms were disgusting 🤢 ?
- Do you remember that unicorn restroom you used on your way to coachella 2019 but don't remember where it was?

Concept

- User story
 - Creating an app with the requirements listed out
- Motivation
 - We wanted to create an app to showcase the skills we have acquired over the course.

Process

- We build this app from the ground up using react.
- Each of us took a task and ran with it. We check in with each other if we needed support or if there was a major life event that happened.
- We used a variety of technology.
 - React
 - Apollo

Future Development

- Expanding the market outside of California.
- Adding images with moderator approval
- Monitizing the app
